Dear Patient,

In urgent gynecological cases we are happy to offer you appointments during our emergency consultation hours.

To ensure that these emergency appointments are only scheduled for truly urgent gynaecological conditions, it is necessary to consult your general practitioner (GP) first. If your GP determines that a specialist consultation is medically indicated, they can refer you through a GP referral process (Hausarztvermittlungsfall).

It is important that this is noted as shown on the referral form below. Additionally, your GP will need our practice registration number (BSNR): **410469200**.

Please note that <u>only urgent gynecological issues</u> that cannot be treated by your GP are eligible for our emergency consultations!

Thank you for your understanding!
